B&U FAN COMPANY

Patriot Lighting® Downrod Ball Replacement

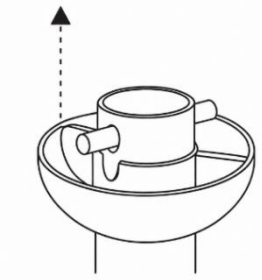

1. Remove the ball from the existing downrod by removing the screw inside the notch on the side of the ball.

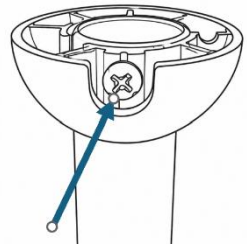

2. Slide down ball and remove the pin.

3. Re-Install pin in the holes and slide the ball, FLAT side up until the notches align with the pin.

4. Secure with the screw from step 1

WARNING

Risk of Serious Injury or Death

Failure to properly assemble and install this ceiling fan in accordance with these instructions may cause the fan to loosen, detach, or fall from the ceiling. A falling ceiling fan can result in serious personal injury, death, and/or property damage.

- Read and understand all instructions before beginning installation.
- Install this ceiling fan only to a UL-listed outlet box marked **"Acceptable for Fan Support"** and securely attached to the building structure.
- Use only the mounting hardware and components supplied with or specifically approved for use with this ceiling fan.
- Ensure all mounting screws, set screws, locking pins, and electrical connections are properly installed and securely tightened before operating the fan.
- Do not modify any component of this ceiling fan or substitute unauthorized parts.
- Inspect the fan periodically to verify that all hardware remains secure.

Failure to follow these instructions and warnings may result in the ceiling fan falling, which could cause serious personal injury, death, or property damage.

The manufacturer is not responsible for injuries, death, or property damage resulting from improper assembly, improper installation, misuse, unauthorized modification, failure to follow these instructions, or installation not in accordance with applicable national and local electrical and building codes, to the fullest extent permitted by applicable law.
